PREFACE

The **Missouri Life, Accident & Health Supplement Report 2009** presents data collected by the Department of Insurance, Financial Institutions & Professional Registration from companies that file annual statement supplements for Missouri for 2009. This form is used to collect data in greater detail than reported in the 2009 Annual Statements. All life, health service corporations and fraternal companies are required to complete this form per 20 CSR 200-1.037, §374.040 RSMo., and §374.045 RSMo. Beginning in 1995, property and casualty companies were also required to complete the accident and health portion of the annual statement supplement for Missouri as an addendum to the supplement to page 19 of the annual statement.

The enclosed documentation, by company, provides information for each line of business specified in the annual statement supplement, with company profiles listed in alphabetical order. Charts have also been included in this publication, for each line of business, only if the line of business has five years of data to report. The first chart shows the total market share of the top 5 and top 10 companies, for the last five years. The second chart shows a total loss ratio, by line of business, for the last five years.

This publication also includes, Historical Trends, By Line of Business. This section provides historical data, by line of business, for the last ten years. Data collection for most of these lines of business started in 1993.

While every effort has been made to assure that all significant errors and omissions in the annual statement supplement data have been identified and resolved, the accuracy of the report depends on the accuracy of the information filed by each company.

The **Missouri Life, Accident & Health Supplement Report 2009** is published by the Statistics Section, Division of Market Regulation, Department of Insurance, Financial Institutions & Professional Registration. Additional copies can be received by sending a written request, along with payment of \$35.00 per copy, to the Department of Insurance, Financial Institutions & Professional Registration, P.O. Box 690, Jefferson City, MO 65102-0690. The Department of Insurance, Financial Institutions & Professional Registration also has a web site located at www.difp.mo.gov.

SEE REVERSE SIDE FOR ADDITIONAL INFORMATION NEEDED FOR SMALL EMPLOYERS AND ASSOCIATIONS

DEFINITION OF TERMS

Life Insurance

Number Of Insureds: For individual policies, the number of insureds must include dependents. For group policies, the number of insureds must equal the number of certificate holders plus all dependents.

Market Share: The dollar amount of direct premium or annuity considerations by company divided by the total amount of direct premium and annuity considerations industry-wide for the particular line of business being analyzed, expressed as a percentage.

Rank by Market Share: The relative position a company attained in the data year compared to all companies reporting premiums (or annuity considerations) for each line of business. Rankings are based on a descending order of market share, i.e., the company with the largest market share is given the ranking of **1 (one)**.

Direct Premiums: The dollar amount charged when a policyholder contracts for life insurance coverage before reinsurance has been ceded and/or assumed. Rules of life insurance accounting require reporting premiums actually collected.

Annuity Considerations: Single payment or periodic payments that are made to purchase an annuity. "Consideration" is a term from contract law for payment given by one party to obligate the other to performance specified by contract.

Dividends Paid: The dollar amount paid to policyholders under participating agreements. These dividends are paid to policyholders after coverage has expired for which they have paid premium. Dividends paid to company stockholders are not included.

Direct Claims and Benefits Paid: The dollar amount paid in performance of obligations imposed by life or annuity contracts including death benefits, matured endowments, annuity benefits, surrender values and other claims. Includes amounts paid during the current year for obligations incurred in prior years but not obligations to be paid in future years. This is a cash flow item only and not a measure of the profitability or the cost of current coverages.

Life Insurance in Force: The value of life insurance in force at year end, which is equal to the amount of insurance in force the previous year plus new contracts issued less contracts ceased during the year.

Benefits Ratio: The dollar amount of direct claims and benefits paid plus the dollar amount of direct dividends paid divided by the dollar amount of direct premium and/or annuity considerations for the particular line of business being analyzed, expressed as a percentage. This is an accounting representation of the portion of each premium dollar which is needed to honor a company's promise to pay claims, benefits, and/or dividends.

Cash Flow Loss Ratio: The dollar amount of direct claims and benefits paid divided by the dollar amount of direct premium and/or annuity considerations written for a particular line of business being analyzed, expressed as a percentage.

Whole Life: A life insurance contract arrangement by which the insured person, upon payment of premium, is guaranteed that upon death, a named beneficiary will receive a stated amount. Though

legally whole life contracts are nondivisible entities, they continue to be explained as a combination of "term insurance protection" and "savings". A policyholder may borrow from the insurer an amount up to the cash value, at a contractual rate of interest, using the cash value as collateral. Premiums for a whole life policy may be paid over the life of the insured or for a limited period during which the higher premium charged pays up the policy.

Term Life: Life insurance which stays in effect for only a specified, limited period. If an insured dies within that period, the beneficiary receives the death payments. If the insured survives, the policy ends and the beneficiary receives nothing.

Universal Life: A life insurance policy under which (1) premiums are flexible, not fixed; (2) protection is adjustable, not fixed; and (3) insurance company expenses and other charges are specifically disclosed to a purchaser.

Graded Death Benefit: A death payment that increases with the age of an insured. Graded benefits may increase gradually and then level off, or may increase sharply before becoming level.

Credit Life: Insurance issued to a creditor to cover the life of a debtor for an outstanding loan. If the debtor dies prior to repayment of the debt, the policy will pay off the balance of the amount outstanding.

Variable Life: Any individual policy which provides for life insurance the amount or duration of which varies according to the investment experience of any separate account(s) established and maintained by the insurer as to the policy pursuant to section 376.309, RSMo of the insurance laws of the state of domicile of a foreign or alien insurer.

Annuities: Contract sold by insurance companies that pays a periodic income benefit for the life of the person (the annuitant) purchasing the contract, or for a specified length of time.

Ordinary: An agreement by an insurer guaranteeing that a specific sum of money will be paid in the future, usually as monthly income, to the annuitant.

Variable: An annuity in which premium payments are used to purchase accumulation units, their number depending on the value of each unit. The value of a unit is determined by the value of the portfolio of stocks in which the insurance company invests the premiums.

Modified Guaranteed: Deferred annuity contract, the underlying assets of which are held in a separate account and the values of which are guaranteed if held for specified periods. It contains nonforfeiture values that are based upon a market-value adjustment formula if held for shorter periods. This formula may or may not reflect the value of assets held in the separate account. The assets underlying the contract must be in a separate account during the period when the contract holder can surrender the contract.

Equity Indexed: Deferred annuity contract whose values are based in any way on the developing value of a financial index, such as the S&P 500, but which has minimum values determined by the nonforfeiture law for deferred annuities issued in this state.

Deposit-Type Funds: Premiums, annuity considerations, deposits, and other annuity income not reported on previous lines as direct premiums or annuity considerations, for which individual annuitants can be identified as Missouri residents. This applies to contracts issued on an individual or group basis.

Other Considerations: Unallocated annuity considerations and other unallocated deposits which incorporate mortality or morbidity risk.

DEFINITION OF TERMS

Accident & Health

Number Of Insureds: For individual policies, the number of insured must include dependents. For group policies, the number of insureds must equal the number of certificate holders plus all dependents.

Market Share: The dollar amount of direct premiums written by company divided by the total amount of direct premiums written industry-wide for the particular line of business being analyzed, expressed as a percentage.

Rank by Market Share: The relative position a company attained in the data year to all companies reporting premiums for each line of business. Rankings are based on a descending order of market share, i.e., the company with the largest market share is given the ranking of 1.

Direct Premiums Written: Amount charged when a policyholder contracts for insurance coverage before reinsurance has been ceded and/or assumed.

Direct Premiums Earned: The part of premium attributable to the coverage already provided in a given period before reinsurance has been ceded and/or assumed.

Dividends Paid: The dollar amount paid to policyholders under participating agreements. These dividends are paid to policyholders after coverage has expired for which they have paid premium. Dividends paid to company stockholders are not included.

Direct Losses Paid: The sum of all payments made during the year for the benefit of insurance claimants, before reinsurance has been ceded and/or assumed. These payments include amounts paid in the current year for claims arising from coverage in prior years and exclude amounts which will be paid in future years for claims arising from the current year. Hence, this item is not a measure of the actual cost of current coverages, but only of current cash flows.

Direct Losses Incurred: The sum of direct losses paid plus an estimate at the close of the year of the amounts to be paid in the future for all claims arising from the current and all prior years, minus the corresponding estimate made at the close of business for the preceding year. Incurred losses reported include estimated amounts unpaid for incurred-but-not-reported (IBNR) claims.

Loss Ratio: The dollar amount of direct losses incurred divided by the dollar amount of premiums earned for the particular line of business being analyzed, expressed as a percentage. This is an accounting representation of the portion of each premium dollar which is needed to honor a company's promise to pay claims.

Cash Flow Loss Ratio: The dollar amount of direct losses paid divided by the dollar amount of direct premiums written for a particular line of business being analyzed, expressed as a percentage.

Medical Expense: A form of health insurance that provides benefits for medical, surgical, and hospital expenses.

Small Employer (2 – 50 employees) or (3 – 25 employees): Major medical or comprehensive group medical expense insurance coverage that is subject to the group market provisions of the Federal Health Insurance Portability and Accountability Act (HIPAA).

Small Employer (3 – 25 employees): Major medical or comprehensive group medical expense coverage that is subject to The Missouri Small Employer Health Insurance Availability Act.

Medicare Supplement: A group or individual policy of accident and sickness insurance or a subscriber contract of hospital and medical service associations or health maintenance organizations, other than a policy issued pursuant to a contract under Section 1876 or Section 1833 of the federal Social Security Act, which is advertised, marketed or designed primarily as a supplement to reimbursements under Medicare for the hospital, medical or surgical expenses of persons eligible for Medicare.

Long Term Care: Any policy, contract, certificate, evidence of coverage or rider advertised, marketed, offered or designed to provide coverage for not less than 12 consecutive months for each covered person on an expense incurred, indemnity, prepaid or other basis; for one or more necessary or medically necessary diagnostic, preventive, therapeutic, rehabilitative, maintenance of personal care services, provided in a setting other than an acute care unit of a hospital. Such term includes group and individual annuities and life insurance policies or riders which provide directly or which supplement long-term care insurance. Such term also includes a policy or rider which provides for payment of benefits based upon cognitive impairment or the loss of functional capacity.

Specified Disease: A policy for certain specified diseases only, such as cancer, heart attacks, scarlet fever, smallpox, polio, tetanus, etc.

Accident Only: A form of health insurance against loss by bodily injury.

Disability Income: A form of health insurance that provides periodic payments to replace income, actually or presumptively lost, when the insured is unable to work as a result of sickness or injury.

Limited Benefit: Policies that are not otherwise described herein and which pay benefits only for specified perils, in contrast to those paying for all accident and sickness perils.

Short Term Credit Disability: Insurance on a debtor to provide indemnity payments becoming due on a specific loan or other credit transaction while the debtor is disabled for durations of less than 10 years.

Long Term Credit Disability (Mortgage): Insurance on a debtor to provide indemnity payments becoming due on a specific loan or other credit transaction while the debtor is disabled for durations of 10 years or more.

Credit Unemployment: Insurance on a debtor to provide indemnity payments becoming due on a specific loan or other transaction on credit when the debtor is involuntarily unemployed.

Stop Loss: A policy, certificate, contract endorsement, attachments, amendments or other modifications to that contract, which protects an employer, trustee, or association against an aggregate amount of claims over a period, by insuring against losses of an employer's self-funded health plan or losses in excess of a specified amount or percentage of the earned premium income.

Medicare Part D: Optional prescription drug benefits provided through Medicare.

Medicare Advantage/Medicare PPO Product: A plan of coverage for health benefits under Medicare Part C as defined in Section 1859 found in Title IV, Subtitle A, Chapter 1 of P.L. 105-33.
